REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claimed subject matter in claims 53-55 and 61-63 is allowable because the arts of record fail to teach or fairly suggest the claimed "A method of providing automatic frequency compensation comprising the steps of:

providing a phase lock loop mode of operation to maintain frequency lock over a selected first range of frequency drift;

providing a sweep mode of operation to step operation of said phase lock loop first range of frequency drift over a selected second range of frequency drift; and

monitoring at least one of said phase lock loop mode of operation and said

sweep mode of operation to determine a portion of said second range of

frequency drift once said first range is successfully able to maintain said

frequency lock;

wherein the size of the first range of frequency drift is substantially equal to the lock range of the phase lock loop" as in claim 53.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 602.

The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37).
